

**IHEARTMEDIA, INC. REPORTS
RESULTS FOR SECOND QUARTER 2016**

San Antonio, TX, August 4, 2016 – iHeartMedia, Inc. (OTCBB: IHRT) today reported financial results for the second quarter ended June 30, 2016.

"We continue to execute on the right strategies to efficiently leverage our growing capabilities as a multi-platform, 21st-century media and entertainment company," said Bob Pittman, Chairman and Chief Executive Officer. "Across our broadcast radio, digital, social, mobile and events platforms with their growing audiences, we are creating even more powerful marketing solutions for our partners. Because we believe that it is critical to do business in the same way that the advertising industry does today, we are extending our automated, data-infused ad-buying initiatives with digital radio's first programmatic private marketplace. This enables buyers to access iHeartRadio's premium inventory and target iHeartRadio's audience using a combination of first- and third-party data segments. At both Americas outdoor and International outdoor, our investments in innovative digital technologies and our ability to win new contracts are providing the creative solutions and flexibility our advertising partners want to reach consumers who are increasingly spending more time out of home."

"We're pleased with the results we have achieved this quarter, with iHeartMedia extending its growth momentum, Americas outdoor improving its operating performance and International outdoor delivering an overall increase in revenues." said Rich Bressler, President, Chief Operating Officer and Chief Financial Officer. "We continue to invest in strengthening our businesses - particularly in enhancing our offerings for consumers and developing innovative marketing solutions for advertisers and agencies, while maintaining our focus on tight operating and financial discipline. These results provide us with the continued flexibility to manage our capital structure in a prudent manner, allowing us to keep evaluating opportunities to strengthen our balance sheet and our businesses."

Second Quarter 2016 Results

Consolidated

Consolidated revenue increased \$18.7 million, or 1.2%, during the second quarter of 2016 as compared to the second quarter of 2015. Revenue growth generated by our iHM business and our International outdoor business was partially offset by lower revenue generated by our Americas outdoor business as a result of the sale of nine non-strategic U.S. outdoor markets in the first quarter of 2016. Consolidated revenue increased \$52.0 million, or 3.3%, after adjusting for a \$6.2 million impact from movements in foreign exchange rates and the \$27.1 million impact of the non-strategic Americas outdoor markets we sold in the first quarter of 2016.

Consolidated direct operating and SG&A expenses increased \$12.1 million, or 1.2%, during the second quarter of 2016 as compared to the second quarter of 2015. Higher direct operating and SG&A expenses in our iHM business and our International outdoor business were partially offset by lower direct operating and SG&A expenses in our Americas outdoor business due to the decrease resulting from the sale of nine non-strategic U.S. outdoor markets in the first quarter of 2016. Consolidated direct operating and SG&A expenses increased \$31.5 million, or 3.1%, in the second quarter after adjusting for a \$5.0 million impact of movements in foreign exchange rates and the \$14.5 million impact of the sale of Americas outdoor markets.

Consolidated operating income decreased \$159.5 million, or 38.7%, during the second quarter of 2016 as compared to the second quarter of 2015, primarily due to the \$99.1 million gain recognized in the second quarter of 2015 related to the sale and subsequent leaseback of radio towers, and the \$56.6 million loss recognized in the second quarter of 2016 related to the disposal of the Company's outdoor business in Turkey.

The Company's OIBDAN was up 0.1% to \$482.8 million for the quarter. After adjusting for the movements in foreign exchange rates and the impact of the sale of the non-strategic Americas outdoor markets, the Company's OIBDAN was up 3.0% in the second quarter of 2016, compared to the same period in 2015.

Included in the 2016 second quarter operating income and OIBDAN were \$6.8 million of direct operating and SG&A expenses and \$0.1 million of corporate expenses associated with the Company's strategic revenue and efficiency initiatives, compared to \$3.8 million and \$3.2 million of such expenses in the prior year, respectively.

iHeartMedia

iHeartMedia revenues increased \$27.2 million, or 3.2%, during the second quarter 2016 as compared to the second quarter 2015. Growth in broadcast radio and digital advertising was driven primarily by our events, including the timing of our iHeartRadio Music Awards show, our traffic and weather business and the impact of trade and barter and political advertising revenues. Revenue also increased in our syndication business driven by growth in our news/talk format.

Direct operating and SG&A expenses increased \$14.0 million, or 2.8%, during the second quarter 2016 as compared to the second quarter 2015 primarily due to variable compensation, investments in national and digital sales capabilities, higher content and programming costs related to increased revenues, and an increase in spending for strategic revenue and efficiency costs.

Operating income increased 3.6% to \$282.8 million, and OIBDAN increased 4.0% to \$345.8 million for the second quarter of 2016 as compared to the second quarter of 2015, and each includes \$5.6 million in expenses related to investments in strategic revenue and efficiency initiatives compared to \$1.6 million in the 2015 period.

Americas Outdoor

Americas outdoor revenues decreased \$15.8 million, or 4.6%, during the second quarter of 2016 as compared to the second quarter of 2015. Revenues increased \$14.3 million, or 4.6%, after adjusting for a \$3.0 million impact from movements in foreign exchange rates and a \$27.1 million impact from non-strategic markets sold in the first quarter of 2016. In the first quarter of 2016, we sold nine non-strategic markets which generated revenues of \$27.1 million in the second quarter of 2015. The decrease resulting from these sales was partially offset by increased revenues from digital billboards as a result of new deployments and higher occupancy on existing digital billboards, as well as new airport contracts and higher revenues from print bulletins.

Direct operating and SG&A expenses decreased \$9.2 million, or 4.4%, during the second quarter of 2016 as compared to the second quarter of 2015. Direct operating and SG&A expenses increased \$7.6 million, or 3.9%, after adjusting for a \$2.3 million impact from movements in foreign exchange rates and the \$14.5 million impact from the sale of non-strategic markets during the second quarter 2016, primarily due to higher variable site lease and variable compensation expense, and increased expenses for property taxes.

Operating income decreased 3.6% to \$80.1 million during the second quarter of 2016 as compared to the second quarter of 2015, primarily as a result of the sale of the non-strategic markets in the first quarter of 2016. OIBDAN was down \$6.6 million, or 4.9%. OIBDAN increased 5.6% during the second quarter 2016, after adjusting for a \$0.7 million impact from movements in foreign exchange rates and the \$12.6 million impact from the sale of non-strategic markets.

International Outdoor

International outdoor revenues increased \$5.1 million, or 1.3%, during the second quarter of 2016 as compared to the second quarter of 2015. Revenues increased \$8.3 million, or 2.2%, after adjusting for a \$3.2 million impact from movements in foreign exchange rates. Higher revenue from new digital assets in Australia and new contracts and higher occupancy across several countries including France and China, was partially offset by lower revenue in the United Kingdom, as a result of the London bus shelter contract not being renewed.

Direct operating and SG&A expenses increased \$6.0 million, or 2.0%, during the second quarter of 2016 as compared to the second quarter of 2015. Direct operating and SG&A expenses increased \$8.6 million, or 2.9%, after adjusting for a \$2.7 million impact from movements in foreign exchange rates. Direct operating and SG&A expenses increased primarily due to higher site lease, production and compensation expenses related to higher revenues, as well as higher office expenses in China and the United Kingdom, partially offset by lower site lease expense due to lower revenue in the United Kingdom.

Operating income increased 4.5% to \$44.7 million during the second quarter of 2016 as compared to the second quarter of 2015, primarily as a result of lower depreciation and amortization expense. OIBDAN was down \$0.9 million, or 1.0%. OIBDAN decreased \$0.4 million, or 0.4%, during the second quarter 2016, after adjusting for a \$0.5 million impact from movements in foreign exchange rates. Operating income and OIBDAN in the second quarter of 2016 each include \$0.6 million in expenses related to investments in strategic revenue and efficiency initiatives compared to \$1.2 million in the 2015 period.

Liquidity and Financial Position

As of June 30, 2016, we had approximately \$951.9 million of cash on our balance sheet, including \$439.5 million of cash held by our subsidiary, CCOH, a portion of which is held by non-wholly owned subsidiaries or is otherwise subject to certain restrictions and not readily accessible to us. \$156.5 million of our cash is held outside the U.S. For the six months ended June 30, 2016, cash flow used for operating activities was \$181.7 million, cash flow provided by investing activities totaled \$436.9 million, cash flow used for financing activities was \$76.3 million, and the effect of exchange rate changes on cash totaled \$0.3 million. The net increase in cash from December 31, 2015 was \$179.2 million.

Capital expenditures for the six months ended June 30, 2016 were \$123.7 million compared to \$124.9 million in the six months ended June 30, 2015. We estimate capital expenditures for 2016 to be between \$300 million and \$350 million.

In the first quarter of 2016, Americas outdoor sold nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft. Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas for net proceeds, including cash and certain advertising assets in Florida, totaling \$594.0 million. These markets contributed \$2.5 million and \$49.4 million in revenue during the six months ended June 30, 2016 and 2015, respectively.

On February 4, 2016, CCOH paid a special dividend of \$540 million, using proceeds relating to a \$300 million demand on the intercompany note owed by iHeartCommunications to CCOH and a portion of the proceeds from the sale of the non-strategic domestic outdoor markets. We received approximately 90.1% of the dividend, or \$486.5 million (\$186.5 million, net of iHeartCommunications' repayment on the intercompany note), with the remaining 9.9%, or \$53.5 million, paid to the public stockholders of CCOH.

As of June 30, 2016, we had borrowed \$230.0 million and had \$44.3 million of outstanding letters of credit under iHeartCommunications' receivables based credit facility with a borrowing base of \$434.8 million, resulting in \$160.5 million of excess availability. However, any incremental borrowing under iHeartCommunications' receivables based credit facility may be further limited by the terms contained in iHeartCommunications' material financing agreements.

On July 15, 2016, Broader Media, LLC, our indirect wholly-owned subsidiary, repurchased \$383.0 million aggregate principal amount of iHeartCommunications' 10.0% Senior Notes due 2018 for an aggregate purchase price of \$222.2 million.

The senior secured credit facilities require iHeartMedia to comply on a quarterly basis with a financial covenant limiting the ratio of consolidated secured debt, net of cash and cash equivalents, to consolidated EBITDA (as defined by iHeartCommunications' senior secured credit facilities) for the preceding four quarters. We were in compliance with this covenant and the other covenants in the senior secured credit facilities and in iHeartCommunications' other material financing agreements as of June 30, 2016.

Supplemental Disclosure Regarding Non-GAAP Financial Information

The following tables set forth the Company's OIBDAN for the three and six months ended June 30, 2016 and 2015. The Company defines OIBDAN as consolidated operating income adjusted to exclude non-cash compensation expenses, included within corporate expenses, as well as the following line items presented in its Statement of Comprehensive Loss: Depreciation and amortization; Impairment charges; and Other operating income (expense), net.

In the second quarter of 2016, the Company revised its presentation of OIBDAN to eliminate the adjustments for lease expense arising from sale leaseback transactions and amortization of deferred system implementation costs. The Company incurred these costs for the first time during 2015 and excluded them from its calculation of OIBDAN in 2015 to enhance the comparability of the Company's underlying financial performance during 2015 as compared to 2014. As lease expense arising from sale leaseback transactions and amortization of deferred system implementation costs are now reflected in both the 2015 and 2016 periods, and are recurring expenses, the Company no longer believes excluding these costs enhances the comparability of the Company's underlying financial performance. The Company does not believe this change will have a significant impact on its OIBDAN presentation.

The Company uses OIBDAN, among other measures, to evaluate the Company's operating performance. This measure is among the primary measures used by management for the planning and forecasting of future periods, as well as for measuring performance for compensation of executives and other members of management. We believe this measure is an important indicator of the Company's operational strength and performance of its business because it provides a link between operational performance and operating income. It is also a primary measure used by management in evaluating companies as potential acquisition targets.

The Company believes the presentation of this measure is relevant and useful for investors because it allows investors to view performance in a manner similar to the method used by the Company's management. The Company believes it helps improve investors' ability to understand the Company's operating performance and makes it easier to compare the Company's results with

other companies that have different capital structures, or tax rates. In addition, the Company believes this measure is also among the primary measures used externally by the Company's investors, analysts and peers in its industry for purposes of valuation and comparing the operating performance of the Company to other companies in its industry.

Since OIBDAN is not a measure calculated in accordance with GAAP, it should not be considered in isolation of, or as a substitute for, operating income as an indicator of operating performance and may not be comparable to similarly titled measures employed by other companies. OIBDAN is not necessarily a measure of the Company's ability to fund its cash needs. As it excludes certain financial information compared with operating income, the most directly comparable GAAP financial measure, users of this financial information should consider the types of events and transactions which are excluded.

The other non-GAAP financial measures presented in the tables below are: (i) revenues, direct operating and SG&A expenses and OIBDAN, each excluding the effects of foreign exchange rates; (ii) revenues, direct operating and SG&A expenses and OIBDAN, each excluding the effects of foreign exchange rates and the results of Americas outdoor markets sold; (iii) revenues excluding the effects of political revenue and (iv) corporate expenses, excluding non-cash compensation expenses.

The Company presents revenues, direct operating and SG&A expenses and OIBDAN, each excluding the effects of foreign exchange rates, because management believes that viewing certain financial results without the impact of fluctuations in foreign currency rates facilitates period to period comparisons of business performance and provides useful information to investors. A significant portion of the Company's advertising operations are conducted in foreign markets, principally Europe, the U.K. and China, and management reviews the results from its foreign operations on a constant dollar basis. Revenues, direct operating and SG&A expenses and OIBDAN, each excluding the effects of foreign exchange rates, are calculated by converting the current period's amounts in local currency to U.S. dollars using average foreign exchange rates for the prior period.

In the first quarter of 2016, the Company sold nine non-strategic Americas outdoor markets. The Company presents revenues, direct operating and SG&A expenses and OIBDAN, each excluding the effects of foreign exchange rates and the results of Americas outdoor markets sold, for the consolidated Company and the Americas outdoor segment, in order to facilitate investors' understanding of operational trends without the impact of fluctuations in foreign currency rates and without the results of the outdoor markets that were sold, as these results will not be included in the Company's results in current and future periods.

The Company presents revenues excluding the effects of political revenue. Due to the cyclical nature of the electoral system and the seasonality of the related political revenues, management believes presenting revenue excluding the effects of political revenue provides additional information to investors about the Company's revenue growth from period to period.

Corporate expenses excluding the effects of non-cash compensation expenses is presented as OIBDAN excludes non-cash compensation expenses.

Since these non-GAAP financial measures are not calculated in accordance with GAAP, they should not be considered in isolation of, or as a substitute for, the most directly comparable GAAP financial measures as an indicator of operating performance.

As required by the SEC, the Company provides reconciliations below to the most directly comparable amounts reported under GAAP, including (i) OIBDAN excluding effects of foreign exchange and OIBDAN for each segment to consolidated and segment operating income; (ii) Revenues excluding the effects of foreign exchange to revenues; (iii) Direct operating and SG&A expenses excluding the effects of foreign exchange to direct operating and SG&A expenses; (iv) Revenues excluding political advertising revenue to revenues; (v) Corporate expenses excluding non-cash compensation expenses to Corporate expenses; (vi) Consolidated and Americas outdoor revenues, direct operating and SG&A expenses and OIBDAN excluding the effects of foreign exchange and outdoor markets sold to Consolidated and Americas outdoor revenues, direct operating and SG&A expenses and operating income.
